

FLUXRUNTIME

for hyperspectral imaging

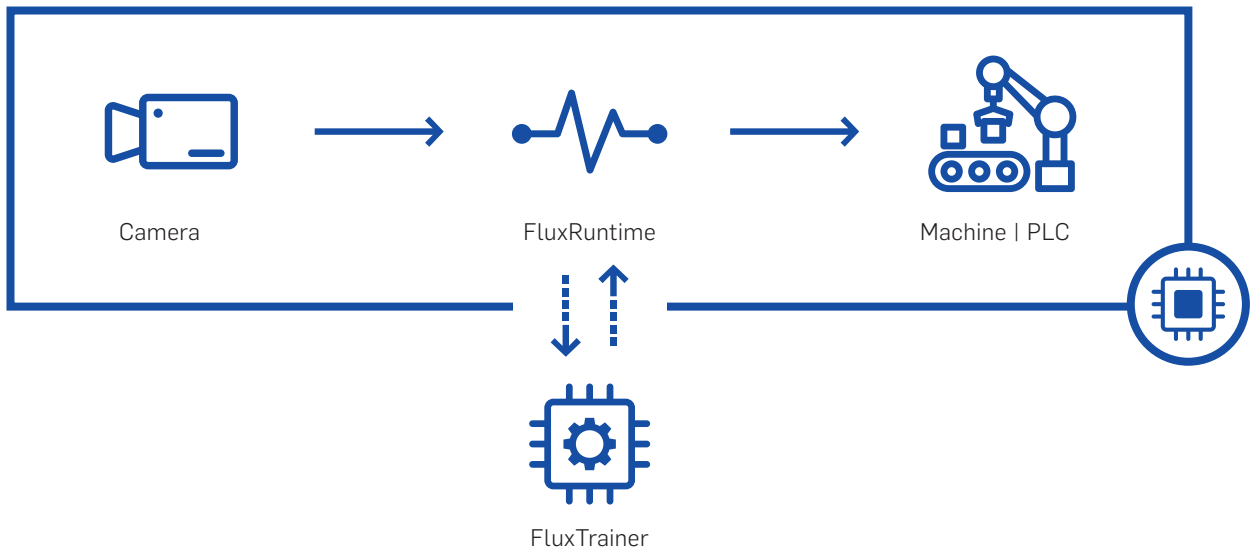

FEATURES

- Runs Models out of the Box
- Supports Industry Vision Standards
- Realtime
- Embedded
- Runs on ARM, Intel, AMD, GPU, Supports Multi-Threading
- Runs on Windows and Linux

ALGORITHMS

- Color Measurement
- Selection
- Dimensionality Reduction
- Image Operation
- Preprocessing
- Classification
- Regression
- Mathematical Functions
- Object Detection
- Decomposition

ARCHITECTURE

SECURITY

State of the Art Cryptography	PKI Ready	RSA 4096 Encryption	TLS Encryption and Authentication
